GnRH agonist	
Effect of acute and chronic administration of Buserelin on serum chorionic gonadotropin, oestradiol-17 β and progesterone during early pregnancy in <i>Macaca radiata</i>	261
GnRH	
Ovulatory responses to continuous administration in nine-month-old prepubertal beef heifers	271
Goat	
Effect of male odour on LH secretion and the induction of ovulation in seasonally anoestrous goats	27
Gonadotrophins	
Differences in secretion post partum between Zebu and European breed cattle	311
Granulosa cells	
Effect of oxytocin on progesterone secretion and of PGF _{2α} on oxytocin secretion from bovine luteal and granulosa cells in culture	297
Growth hormone	
Concomitant measurement of ovine placental lactogen, pituitary growth hormone and prolactin in maternal and fetal plasma of a pregnant ewe carrying an anencephalic fetus: a case report	213
hCG	
Maintenance of ovulatory cycles and pregnancy in prepubertal gilts treated with PMSG and hCG	235
Horse	
Ovarian follicular response to an equine pituitary extract after suppression of follicular development	131
Immunology	
Relative effectiveness of active immunization with follicular fluid and/or steroids in increasing ovulation rates in Romney ewes	121
Implantation	
Effects of aminoglutethimide phosphate administration on embryonic development and implantation and on steroid hormone levels in superovulated rats	339
Lactogen	
Concomitant measurement of ovine placental lactogen, pituitary growth hormone and prolactin in maternal and fetal plasma of a pregnant ewe carrying an anencephalic fetus: a case report	213
LH	
Effect of male odour on LH secretion and the induction of ovulation in seasonally anoestrous goats	27
Concentrations after naloxone administration in follicular-phase gilts	39
Naloxone antagonizes the morphine suppression of the oestradiol-induced surge of LH in dairy cows	289
Luteolysis	
Oxytocin plasma levels during spontaneous and cloprostenol-induced luteolysis in sows ..	109
Male-female interactions	
Effect of male odour on LH secretion and the induction of ovulation in seasonally anoestrous goats	27
Melatonin	
Effect of subcutaneous implants on the seasonal attainment of puberty in female <i>Cervus elaphus</i>	145

Monkey	
Effect of acute and chronic administration of gonadotrophin releasing hormone agonist, Buserelin, on serum chorionic gonadotropin, oestradiol-17 β and progesterone during early pregnancy in <i>Macaca radiata</i>	261
Morphine	
Naloxone antagonizes the morphine suppression of the oestradiol-induced surge of luteinising hormone in dairy cows	289
Mouse	
Quick freezing of embryos using ethylene glycol with lactose or sucrose	161
Seasonal patterns in the pheromonal regulation of oestrous cyclicity in <i>Mus musculus domesticus</i>	349
Naloxone	
Concentrations of prolactin, LH and FSH after naloxone administration in follicular-phase gilts	39
Naloxone antagonizes the morphine suppression of the oestradiol-induced surge of luteinising hormone in dairy cows	289
Oestradiol	
Naloxone antagonizes the morphine suppression of the oestradiol-induced surge of luteinising hormone in dairy cows	289
Oestradiol-17 β	
In testis and jugular venous plasma of intact and hemi-castrated prepubertal lambs and in jugular venous plasma of castrated prepubertal lambs	9
Sensitivity of the hypothalamo-hypophyseal axis to the positive feedback effects of estrogen in ovariectomized anestrus and diestrus sows	243
Effect of acute and chronic administration of gonadotropin releasing hormone agonist, Buserelin, on serum chorionic gonadotropin, oestradiol-17 β and progesterone during early pregnancy in <i>Macaca radiata</i>	261
Effects of aminoglutethimide phosphate administration on embryonic development and implantation and on steroid hormone levels in superovulated rats	339
Oestrogen receptors	
Characterization of cystic endometrial hyperplasia in swine leukocyte antigen miniature swine: serum hormone and endometrial estrogen receptor concentrations	99
Oestrous cycle	
Changes in the contents of buffalo cervical mucus during different phases of the cycle	203
Cell density, fluid volume and electrolyte content of bovine vulvar tissue during oestrus and dioestrus	281
Prostaglandin E ₂ and progesterone during the cycle of the pig	325
Seasonal patterns in the pheromonal regulation of cyclicity in <i>Mus musculus domesticus</i>	349
Oestrus	
Control of oestrus in gilts	
I. Management-induced puberty	221
II. Synchronization of oestrus with a progestagen, Altrenogest (Regumate): effect on fertility and litter size	227
Ovary	
Buffalo fetal cotyledons contain certain factors that suppress compensatory ovarian hypertrophy in mice	1
Ovarian follicular response of mares to an equine pituitary extract after suppression of follicular development	131
Characterization of ovarian activity in postpartum dairy cows using ultrasound imaging and progesterone profiles	171

Ovulation

- Effect of male odour on LH secretion and the induction of ovulation in seasonally anoestrous goats 27
- Relative effectiveness of active immunization with follicular fluid and/or steroids in increasing ovulation rates in Romney ewes 121
- Maintenance of ovulatory cycles and pregnancy in prepubertal gilts treated with PMSG and hCG 235
- Ovulatory responses to continuous administration of GnRH in nine-month-old prepubertal beef heifers 271

Oxytocin

- Plasma levels during spontaneous and cloprostenol-induced luteolysis in sows 109
- Effect on progesterone secretion and effect of PGF_{2α} on oxytocin secretion from bovine luteal and granulosa cells in culture 297

PGF_{2α}

- Effect on oxytocin secretion from bovine luteal and granulosa cells in culture 297

Pheromones

- Seasonal patterns in pheromonal regulation of oestrous cyclicity in *Mus musculus domesticus* 349

Pig

Pituitary

- Oxytocin plasma levels during spontaneous and cloprostenol-induced luteolysis in sows .. 109
- Ovarian follicular response of mares to an equine pituitary extract after suppression of follicular development 131

Placenta

- Concomitant measurement of ovine placental lactogen, pituitary growth hormone and prolactin in maternal and fetal plasma of a pregnant ewe carrying an anencephalic fetus: a case report 213

PMSG

- Maintenance of ovulatory cycles and pregnancy in prepubertal gilts treated with PMSG and hCG 235

Pregnancy	
Effect of acute and chronic administration of gonadotropin releasing hormone agonist, Buserelin, on serum chorionic gonadotropin, oestradiol-17 β and progesterone during early pregnancy in <i>Macaca radiata</i>	261
Progestagens, general	
Control of oestrus in gilts. II. Synchronization of oestrus with a progestagen, Altrenogest (Regumate): effect on fertility and litter size	227
Progesterone	
Characterization of cystic endometrial hyperplasia in swine leukocyte antigen miniature swine: serum hormone and endometrial estrogen receptor concentrations	99
Characterization of ovarian activity in postpartum dairy cows using ultrasound imaging and progesterone profiles	171
Effect of acute and chronic administration of gonadotropin releasing hormone agonist, Buserelin, on serum chorionic gonadotropin, oestradiol-17 β and progesterone during early pregnancy in <i>Macaca radiata</i>	261
Effect of oxytocin on progesterone secretion and of PGF _{2α} on oxytocin secretion from bovine luteal and granulosa cells in culture	297
Prostaglandin E ₂ and progesterone during the estrous cycle of the pig	325
Effects of aminoglutethimide phosphate administration on embryonic development and implantation and on steroid hormone levels in superovulated rats	339
Prolactin	
Concentrations after naloxone administration in follicular-phase gilts	39
Prostaglandins	
Oxytocin plasma levels during spontaneous and cloprostenol-induced luteolysis in sows ..	109
Prostaglandin E ₂ and progesterone during the estrous cycle of the pig	325
Puberty	
Effect of subcutaneous melatonin implants on the seasonal attainment of puberty in female <i>Cervus elaphus</i>	145
Control of oestrus in gilts. I. Management-induced puberty	221
Rat	
Effects of aminoglutethimide phosphate administration on embryonic development and implantation and on steroid hormone levels in superovulated rats	339
Red deer	
Effect of subcutaneous melatonin implants on the seasonal attainment of puberty in females	145
Relaxin	
Immunoactive relaxin in boar seminal plasma and its correlation with sperm motility	47
EDTA and caffeine are antagonistic to antirelaxin serum inhibition of porcine sperm motility	253
Seasonal patterns	
In the pheromonal regulation of oestrous cyclicity in <i>Mus musculus domesticus</i>	349
Semen collection	
Frequency, and the energy metabolism of A.I. boars	87
Sheep	
Oestradiol-17 β in testis and jugular venous plasma of intact and hemi-castrated prepubertal lambs and in jugular venous plasma of castrated prepubertal lambs	9
Plasma testosterone in <i>Trypanosoma congolense</i> - and <i>Trypanosoma brucei</i> -infected West African dwarf rams	21
Relative effectiveness of active immunization with follicular fluid and/or steroids in increasing ovulation rates in Romney ewes	121

Concomitant measurement of placental lactogen, pituitary growth hormone and prolactin in maternal and fetal plasma of a pregnant ewe carrying an anencephalic fetus: a case report	213
Sperm biochemistry	
Boar sperm aminopeptidase: purification and partial characterization	55
Sperm motility	
Immunoactive relaxin in boar seminal plasma and its correlation with sperm motility	47
EDTA and caffeine are antagonistic to antirelaxin serum inhibition of porcine sperm motility	253
Sperm quality	
Immature and aberrant spermatozoa in the ejaculate of <i>Sus domesticus</i>	67
Spermatozoa	
Correlation between the viability of bovine spermatozoa preserved at ambient temperature and the activity of transferases	319
Testis	
Oestradiol-17 β in testis and jugular venous plasma of intact and hemi-castrated prepubertal lambs	9
Testosterone	
Plasma levels in <i>Trypanosoma congolense</i> - and <i>Trypanosoma brucei</i> -infected West African dwarf rams	21
Transferase	
Correlation between the viability of bovine spermatozoa preserved at ambient temperature and the activity of transferases	319
<i>Trypanosoma</i> spp.	
Plasma testosterone in <i>T. congolense</i> - and <i>T. brucei</i> -infected West African dwarf rams ...	21
Ultrasonography	
Characterization of ovarian activity in postpartum dairy cows using ultrasound imaging and progesterone profiles	171
Vulvar tissue	
Cell density, fluid volume and electrolyte content of bovine vulvar tissue during oestrus and dioestrus	281
